# **PRESS RELEASE**

## **FAMILY GUARDIAN DONATES DIALYSIS UNIT**

Linda Jarrett, Family Guardian's Vice President, Group Life & Health (BahamaHealth), presented a cheque for \$20,500 to Robert Carron of The Tribune, to purchase a dialysis machine for the Princess Margaret Hospital. Anne Higgs, Family Guardian's Vice President of Human Resources & Public Relations, was also on hand for the presentation.

Donations to the Tile King, FYP Ltd., and The Tribune's campaign to raise funds for badly needed dialysis machines at PMH have been pledged by several corporate and private sponsors.

Speaking on behalf of Family Guardian, Linda Jarrett said that the company was happy to support this very worthy health initiative. "Family Guardian, through BahamaHealth, is well-acquainted with the needs of patients with kidney disease. With this donation earmarked for the purchase of a dialysis machine, we are pleased to be a part of this important effort to bring assistance to Bahamians facing serious health issues."
