

A Heartfelt Donation

February 9, 2009

Family Guardian and its group health division, BahamaHealth, are major sponsors of this year's "Celebrate Heart Month," which runs through February. Family Guardian's Vice President, Group Life and Health Division, Linda Jarrett (left) recently presented the company's sponsorship pledge to Nellie Brown of the Bahamas Heart Association. In making the presentation, Mrs. Jarrett noted: "We are happy to partner with the Heart Association in this important health initiative which runs concurrently with BahamaHealth's 100-Day Challenge. BahamaHealth's focus is to bring awareness and solutions to the serious health risks associated with obesity, including heart disease, and our partnership with the Heart Association is very timely."
